

Making Health Care Better Together

ALABAMA • FLORIDA • GEORGIA • KENTUCKY • LOUISIANA • NORTH CAROLINA • TENNESSEE

Be the Change You Wish to See in Healthcare Join a Coalition to Transform Care in Your Community

You are invited to be part of a national movement that is federally funded and focused on making major improvements in areas such as behavioral health, patient safety, care coordination, nursing homes and long-term care, chronic disease self-management and public health. Change will occur when diverse community members, partners and providers come together at the local level to collaborate on data-driven improvement initiatives.

Our Bold Mission

Over the next five years, Alliant Quality, the quality improvement group of Alliant Health Solutions (AHS), and its partners will work with stakeholders like you to achieve the Centers for Medicare & Medicaid Services' national aims. AHS is the Quality Improvement Network-Quality Improvement Organization (QIN-QIO) for Alabama, Florida, Georgia, Kentucky, Louisiana, North Carolina, and Tennessee.

Improve Behavioral Health Outcomes, including focusing on Reducing Opioid Misuse

- Reduce opioid use and death
- Improve early detection of Alzheimer's and depression screening
- Improve access to and treatment of substance use disorders

Increase Patient Safety

- Reduce adverse drug events (ADEs) across community settings
- Reduce adverse drug events in nursing homes
- Reduce hospitalizations for nursing home onset of C-diff

Improve Chronic Disease Self-Management

(Cardiac and Vascular Health, Diabetes, Slowing and Preventing End Stage Renal Disease)

- Support the Million Hearts Initiative to prevent cardiovascular events
- Reduce smoking prevalence of Medicare beneficiaries
- Educate and screen patients to improve management of diabetes
- Diagnose, manage and screen for chronic kidney disease (CKD)

Increase Quality of Care Transitions

- Reduce the rate of emergency department visits
- Reduce hospital admissions and readmissions
- Reduce admissions and emergency department visits by super utilizers
- Improve care transitions between care settings

What's in it for you?

- Networking opportunities with a diverse group of providers, beneficiaries and community stakeholders
- Sharing promising strategies and best practices to improve community outcomes
- Access to community performance data
- Availability of educational resources for quality improvement techniques and methodology
- Access to technical assistance with improvement projects
