

FOR IMMEDIATE RELEASE

Optim Pain Management Welcomes Dr. Jessica R. Reyes, MD as New Interventional Pain Management Specialist Fellowship-Trained Physician to Begin Patient Care on October 21, 2024, Across Statesboro, Claxton, and Sylvania Locations

[Statesboro, GA – October 4, 2024] – Optim Pain Management is pleased to announce that Dr. Jessica R. Reyes, MD, a Fellowship-trained Interventional Pain Management specialist, is joining the Optim Pain Management team. Dr. Reyes will begin seeing patients on October 21, 2024, at our clinics in Statesboro, Claxton, and Sylvania.

Dr. Reyes has recently completed a rigorous fellowship program in Interventional Pain Management, where she acquired advanced training in the latest pain management techniques and technologies. Fellowship training is crucial in the medical field as it provides physicians with specialized skills and in-depth knowledge necessary to deliver cutting-edge treatments and improve patient outcomes. Dr. Reyes' comprehensive education ensures that she is well-equipped to address a wide range of chronic pain conditions with the highest standard of care.

“We are excited to welcome Dr. Reyes to our team,” said Amber Downey, Director of Physician Practices at Optim Health System. “Her specialized training and dedication to patient-centered care align perfectly with our mission to provide exceptional pain management services. Dr. Reyes' expertise will enhance our ability to offer innovative and effective treatments to our patients across all our locations.”

In addition to her clinical training, Dr. Reyes is committed to ongoing education and staying at the forefront of advancements in pain management. Her passion for helping patients regain their quality of life through effective pain relief makes her a valuable addition to the Optim Pain Management family.

Effective October 31, 2024, Dr. Michael D. Dykes will be departing from Optim Pain Management. While we will miss Dr. Dykes' dedication and contributions, we are pleased to ensure a seamless transition for our patients. All patients currently under Dr. Dykes' care will automatically be transferred to Dr. Reyes without any need for action, and their existing appointment times will remain unchanged.

“Our priority is to make this transition as smooth as possible for our patients,” added Downey. “Dr. Reyes is exceptionally qualified and will continue to provide the high standard of care that our patients have come to expect.”

Optim Pain Management remains committed to offering comprehensive pain management solutions tailored to each patient’s unique needs. With the addition of Dr. Reyes, the practice is well-positioned to expand its services and continue delivering outstanding care across all its locations.
